FINANCIAL HIGHLIGHTS FOR SIX MONTHS TO 30 JUNE 2016 AND QUARTERLY BUSINESS UPDATE FOR THREE MONTHS TO 30 SEPTEMBER 2016

31 October 2016

HB Reavis, 3rd largest European office developer, as ranked by leading pan-European real estate magazine Property EU, today comments on financial highlights for the six months to 30 June 2016 and announces quarterly business update for three months to 30 September 2016.

Marian Herman, Chief Financial Officer said: “Despite challenging external environment during first six months of 2016, our efforts resulted in solid operational delivery that was however negatively off-set by currency movements of PLN and GBP after the vote in the EU-referendum in the United Kingdom. High-level of development activity across most of our markets, strong leasing and continued programme of divestments were key reasons behind our strong balance sheet enabling us to further expand our business. The third quarter 2016 has been strongly dominated by materialized effort in the area of divestments and has been historically best in terms of total divestment value. In the third quarter we have entered into forward sale of our key project 33 Central in London to Wells Fargo, we have completed the sale of Konstruktorska Business Center in Warsaw to Golden Star Estate and we have signed a sale agreement of Gdanski Business Center I in Warsaw to Global Wealth Pension Fund advised by Savills IM. Throughout 2016 year-to-date we have concluded divestments totaling almost €750m. Thanks to these accomplishments we have demonstrated our ability to complete project property cycle in each of our countries of operation. In addition to HB Reavis Group divestments, the fund HB Reavis CE REIF has completed the sale of Aupark Piestany in Slovakia to New Europe Property Investment (NEPI) which is the third acquisition by this investor of our “Aupark” project with Aupark in Zilina and Kosice being the first two. No new acquisition has materialized in the third quarter leaving the number of acquisitions year to date at three. The leasing activity continued at a strong pace with total amount of signed leases at 25.1 thousand sq m with the biggest tenants being the internationally well recognised brands such as Phillip Morris, GE and SAP. In addition we have secured occupier for the whole building 33 Central (21.1 thousand sq m) via forward sale to Wells Fargo, the third largest US bank by total assets. On financing front we have signed development loan for West Station I in total amount of €44.6m. Total amount of drawdowns from bank financings in the third quarter reached €50.8m. We have also returned to our debt capital market in Warsaw with setting-up of the bond programme amounting up to PLN 500m (approx. €116m) under which we have issued the first tranche of PLN 100m in early fourth quarter 2016. With respect to the progress of construction on our developments, we have commenced the refurbishment of our third project in London, Cooper&Southwark at 61 Southwark Street that we expect to complete in Q4 2017. We have received an occupancy permit for West Station I in Warsaw – joint venture project with PKP who is also the biggest occupier of the building. In parallel, we have secured also occupancy permit for Twin City building C in Bratislava. Lastly, we have completed refurbishment of Centrum Bottova in Bratislava that should serve as a temporary bus station in Slovak capital while HB Reavis will initiate preparatory and development works for its landmark project in Bratislava, the Nivy Mall & Stanica Nivy.”
