

Personnel changes in HB Reavis' Polish construction division

Jadwiga Kosińska took over as Country Construction Officer at the real estate developer HB Reavis Poland. Since September 2017, she has been overseeing a team of 50 that coordinates the construction of the company's key projects in Warsaw. Jan Hübner, the previous Country Head of HB Reavis Construction Poland, was appointed Country CEO at HB Reavis Hungary.

HB Reavis Construction is a specialised construction process management company responsible for all projects developed by the HB Reavis Group. In Warsaw, HB Reavis Construction is the general contractor of developments such as Varso, West Station and the project planned at ul. Burakowska.

"HB Reavis Construction plays a key role in the integrated business model of our Group, ensuring direct, professional oversight of our ongoing construction projects. We are currently developing or have plans for buildings with a total area of approximately 230,000 sq m. Welcoming Jadwiga aboard, I am convinced that her great experience will help us put our plans into action, creating top-quality, people-friendly buildings," says Stanislav Frnka, Country CEO at HB Reavis Poland.

Before joining HB Reavis, Jadwiga Kosińska led the construction team at Vastint Poland, where she was responsible for various construction projects, including Business Garden schemes. Previously, she worked for HOCHTIEF Poland. She graduated in construction from the Warsaw University of Technology and received her Executive MBA degree from the University of Illinois at Urbana-Champaign.

"I am excited to become part of a dynamic company that has grown into one of the leading players in the Polish real estate market over the last few years. Having a hand in the development of such spectacular projects as Varso as well as the innovative business approach of HB Reavis are a perfect challenge for every professional. I believe I will be able to contribute to the company's continued success in Poland in the future," comments Jadwiga Kosińska.

For the last five years, HB Reavis Construction Poland was led by Jan Hübner, who took up the post of Country CEO at HB Reavis Hungary in September, which has just launched the construction of Agora in Budapest. During his time in Poland, he contributed to company's growth in Warsaw by supervising the construction of a total of 250,000 sq m GLA. Before joining the HB Reavis Group in 2010, Jan Hübner worked as Project Manager in CTP Invest and in the Czech architectural studio K4. He received his Construction and Economics master's degrees from Brno University of Technology.

HB Reavis' mission is to bring remarkable experiences to people's lives through our real estate solutions. The people who experience our developments are our main focus - our aim is to deliver great spaces that enhance productivity, well-being and overall experience for those that use them as well as the surrounding communities. As an integrated pan-European developer we design, build and manage our buildings; we also act as investment manager and manage spaces for co-working. We operate in the UK, Poland, the Czech Republic, Slovakia and Hungary while exploring development opportunities in Germany and Turkey. The exceptionally high standards we set in terms of development quality and sustainability have been recognised internationally with a series of awards, including "Best employer in Poland" - awarded in 2016 by AON Hewitt, "Best Developer in CEE 2017" in the CEE Quality Awards and "Best European Office Developer 2016" in the World Finance awards. Our developments total more than 1.2 million sq m, with gross development value of €5.7 billion. Our portfolio comprises more than 87 per cent modern offices, making us one of the European leaders in workplace solutions across the continent. Another 11 schemes are under construction, with a leasable area of 355,000 sq m and value of €1.8 billion. With capital exceeding €1.2 billion and staff of more than 600 people, we're proud to say that HB Reavis is among the European market leaders in office development.
